

Tydak Services

IT SERVICE MANAGEMENT

We make it our job to give your IT department a true customer focus, to market them throughout your organization, and to improve communication between managers and IT professionals.

BUSINESS INTELLIGENCE

Tydak designs Business Intelligence solutions that fit within your current systems and consolidate the data you use most, so that you can ask critical business questions and get straight-forward answers immediately.

DATA WAREHOUSING

Tydak's data architects and business intelligence experts work with you to identify all data sources, define a storage strategy, and develop a BI solution to simplify the reporting process for your business managers.

SPEAKING ENGAGEMENTS

Tydak founder Patricia Bramhall is a highly sought-after speaker on IT and management topics. To request a Tydak presentation for your seminar or conference, please call (805) 374-9201 or e-mail us at info@tydak.com.

IT Solutions to Move Your Business Forward

Optimize Your IT Department

We are a technology services company that offers a range of helpful services to get your corporate IT organization humming. We'll help you streamline processes, empower your teams, and put the tools in place to help you get the answers you need simply and clearly. Every time. Our expertise in both IT Service Management and Business Intelligence gives us the ability to take the mystery out of Information Technology, and give you the tools you need to run your business.

By evaluating business processes, your people's skills, and core technologies, we align IT with your company's strategic objectives. Our custom-built tools give business managers the ability to instantly access and analyze critical sales, marketing, and financial data. And we help streamline your IT organization so that IT can focus on the high-priority, high-value initiatives that will drive your business forward.

Stop funding IT initiatives that you don't understand.

Tydak brings transparency to the IT organization and provides clear, measurable scorecards to keep your IT team focused on the high-value services. With over 20 years of experience in managing strategic IT programs, we've seen it all...Technology bloat. Massive systems integration projects that never get completed. Unclear departmental goals. But IT doesn't need to be a mystery nor operate in isolation from the rest of the organization.

Innovative solutions for the most demanding companies.

While each organization has its unique set of challenges, Tydak's methodology has been universally applied to get results, quickly and effectively. We enter each engagement with a shared sense of responsibility for the outcomes, and collaborate openly with IT and business leaders to build lasting value.
